# WHAT ARE SABBIARELLI®

## From the White Carrara marble

**Sabbiarelli® are made starting from the White Carrara marble, designed and created entirely by Ferrari Granulati srl**, a Veronese company engaged from over 30 years in the Italian marble processing. Sabbiarelli® is a game 100% made in Italy.

From a pure and simple element like **the white sand**, that can be transformed with environmentally friendly pigments in 15 shades, comes from the range of colours of Sabbiarelli®. With this colours, children can give a **shining effect** to a wide range of drawings that Sabbiarelli® already provides pre-cut.

**Sabbiarelli® is an easy game**, suitable for children 3-12 years, but also for teens and adults **to express their creativity**: there is no limit to the imagination and the ability to find infinite combinations of colour or shades to realize extraordinary drawings.

## The power of the game Sabbiarelli®

Sabbiarelli® is fascinating because as soon as you open the packaging you can understand that **imagination** and **creativity** will guide this gaming experience. Through the fun the child learns to hone **the fine hand-eye manipulation**, stimulates the **sensory and attention development**. **The planning and organization** of work becomes part of the game itself and shows to the child the **concept of reuse** recovering the sand.

# HOW TO COLOUR WITH SABBIARELLI®

1. Place the drawing on a tray

2. Remove the paper with the lifting tool

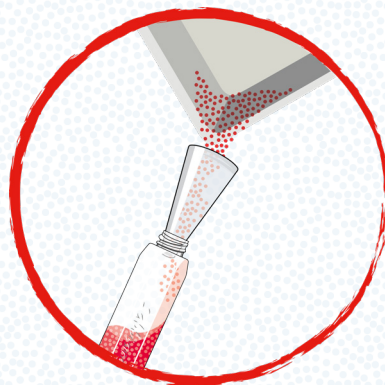

3. Colour with Sabbiarelli® sand

4. Fix the sand with your fingers

5. Shake off any extra sand
